### Takes New Blow At Japanese

Associated Negro Press.

SAN FRANCISCO, Calif., Dec. 31

Sixty thousand Japanese are de SAN PRANCISCO, Calif. Dec. 21, —Sky thousand Jupanese are de-prived of their farm interests in this state by a decision of the Tailted States Supreme Court, during the past week upholding the validity of the so-called anti-cropping contract praviden in this state's anti-alien land law. These premium must demand only in the capacity of water carners.

"PASSINN"
is by the First Picture That the Famous Director Made, with First Picture That the Famous Director Made, with POLA anding Star, in America!

The genius of Pola Negri flames to the fullest in this sensational drama of roy-alty's secret loves.

The secret love affairs of an empress who lived for romance and ruled many hearts. Pola's greatest love-role since "Passion." Made by the same director.

Rod La Rosque, Adobite Menjon and Paulije Starke are featured in the sorting one which includes Prod Maintenin, Dick the Rule and Misic

The story is an entertaining romance of court intrigue, laid in a small Balkan kingdom. Pola's role is that of a Czarina who rules her subjects with an iron hand. It is, without doubt, her finest screen part.

### CAN MISSOURI AFFORD IT? - VI

Thee lynchings in this State in four years leaves a pretty lack mark against the people of Imperial Missouri. This record ill compare theoreby with sone of the market is takes and the empare theoreby with sone of the market is takes there are the empered with a market in the same indifferent attitude toward mob law has made them a lengthing stock of all civilized people. States that cater to mob rick, lynching and burning of huma beings, are backward in the march of civilization. The South the garden spot of the world; dieda in weather, with natural sources, and liberal in bospitality. But, why is it that the table has no large cities, no great manufacturing plants, no rest statesmen? Why, with all the political power, can no ruther me ho nominated and elected President of the United states?—The peason is clear.

Missouri's supposed to be different. Lynching-burning is a godnet of the South. It is the by-product of slavery. Why should the people of the Sis State seek the most backward section in all the civilized world to pattern after?

If the State is to take her place in the ranks of first class states, she should pattern after such states. Lynching-burning is a heathen, pagan idea. Somehow its stant sticks to the people of a state, especially those who are responsible for it. Happily, the others are responsible in a civilized country, nobely who thinks logically would want a man a President of the United States, whose home state has a public record of lawlessness. No one would want a man Vice-President of the United States, whose home state has a public record of lawlessness. No one would want a man Vice-President of the United States, whose home state has a public record of lawlessness.

innocent.

The South, to-day, has the hardest task that ever baffled the human mind. It is trying to rise, and, at the 'kame time keep' the Negroes down. When we think of the struggles and the services that the white people of the South are making in their efforts to keep the Negroes down, we are reminded of Booker T. Washington's philosophy. "You cannot keep a man down in the fifth, without staying down with him."

If the white people of the South of Missouri, and everywhere woilful learn just that one lesson, everybody would be much better off.

where woild learn just that one lesson, everybody would be where woild learn just that one lesson, everybody would be where woild learn just that one lesson, everybody would be made in the white work in the work of the Manager and the work of the Manager and the work of the state. The farming districts are being greatly benefited by the influx of Negru laborers who have field from the South, leaving bare the fields, seeking better places in which to live; seeking to be free from mob law, and have a chance to educate, their children. Will the people of the State protect them the work of t

As we gaze-into the future we only see to-day. Hope, how-ever, give courage to go on like the man in the dark; step by step, finding our way by the eye of faith.

As we anticipate the future, we have only the lamp of the past by which to be guided. In the past, we have seen men rise and fail. Good and evil have striven for the insistery. So, ge-verding to the laws of mature, these thirigs will be on the horizon of the New Year.

In entering upon the threshold of the New Year, we should do so with full reverence to lim who controls, the destines of men. depending upon Hint to stude us through the valley and shadow of death, as well as lead us through the Valley and shadow of death, as well as lead us through green pastures.

While others go yonder, because, in the revidence of God, we were bein of the rent parents. We hate he spirit that exys to us, "Tims far shalt thou go and no farther," Just because of the color of our skin or the texture of our nir. It has pleased flin to make many colors among men just as He has of birds, beasts or fishes.

So far as we were able to see, the little white boy, who passed the table, received his toys, and found his, soat, wasnot burt by the presence of a little colored boy just behind him, who found a seat beside him in the balconies. We particularly noticed that the actors, or performers, who furnished the entertainment, and whose acts made the little white boy laugh, the same thing always jickled the little colored boy by his side.

Then, too, there is a human side to an affair of this kind.

Then the human. We, the colored people, are Americans. We know one language, and worship the one God. We study the same books and are taught the same standards of living. We would have a white child from danger just as quickly as we "yould aswe a colored child frem peril. It's the human spirit that makes us do that.

### NEW YEAR'S RESOLUTION

Let us first resolve to be men and women by playing the part of men and women. Let us not be satisfied with anything less than a man's part. Let us teach the youth-of the race to let no condition conquer the spirit of their souls. Teach them to be willing to be measured by every test of man, patriotic, loyal and true. Teach them that it is manly to fight for a man's place, and not the satisfied, with anything less. Teach them that success' is limited unly by their own minds and determination. To this end that they may grow to be men and women parced for the new duties, and the new responsibilities that ape fast falling upon them.
